

# Victor Landim

Front-end Engineer

## ABOUT

I'm a front-end engineer passionate about code and music. I believe in technology as a means to enhance and positively impact people's lives. Concerned with efficiency and user experience, I utilize cutting-edge tools to deliver functional digital experiences.

I'm constantly learning and adapting.

## SKILLS

- Front-end:** HTML5, CSS3, Sass, SEO, Typescript, Javascript, ES6, React, Redux, Next.js, Gatsby, Storybook, Jest, Cypress.
- Back-end:** Node.js, Express.js, Nest.js, REST, GraphQL, MongoDB, PostgreSQL.
- Deployment:** Docker, Babel, AWS, EB, EC2, Git.
- Familiar with:** Go, Elixir, Python, Kubernetes, Microservices.
- Soft skills:** Proactivity, Self-teaching, Empathy, Time management, Adaptability.

## 4 YEARS OF EXPERIENCE

### Front-end Engineer | X-Team (may 2021 - present)

- Worked with front-end development (Typescript, Next.js, GraphQL) for partner Live Nation.

### Front-end Engineer | Goodworld (mar 2020 - may 2021 | 1 year, 2 months)

(American D.C.-based fintech startup. A Techstars and 500 Startups Portfolio Company. Current raise led by Mastercard)

- Helped partners raise thousands of dollars and impact thousands of monthly donors implementing custom donation campaign pages created with React, Next.js, GraphQL.  
Partners include: Mastercard, Citi Bank, City of Los Angeles, Prince Harry, Selena Gomez, Jennifer Lopez, Foo Fighters, Ben Affleck & others.
- Leveraged cutting-edge tools (React, Storybook, Typescript, Tailwind) to publish a private design system to unify the company's voice.
- Took part in critical product decisions during sprint meetings and calls with partners.

### Full Stack Web Developer | Colmeia Tech (feb 2017 - dec 2019 | 2 years, 10 months)

(Prominent Brazilian startup that connects students to private tutors)

- Translated mockups and designs into efficient UI components and responsive pages using React, Node, Sass.
- Successfully optimized both the website's pageload speed and SEO, ultimately achieving top rankings on organic searches.

## ACCOMPLISHMENTS

### Speaker | Workshop "Your first steps with React" @ IV IEEE Week (2019)

- Volunteered to teach an Intro to React workshop at University of Brasília. Used original methodology and material. (github)

### Winner | Hackathon Caixa Insurances (2017)

- Won 1st place \$4k prize. Proposed the use of IBM's Watson chatbot toolkit to support and increase insurance sales.
